EXPERIENCE

Developer – Tarsin, Inc.   **September 2009 - Present**

- Build custom mobile applications using HTML, CSS, JSP, and JavaScript.
- Support multiple devices, including: iPhone, Android, Rim, Windows, and Nextel.
- Develop an admin interface for maintaining mobile applications.
- Develop and maintain the company intranet.

UI Designer - CLP Resources   **March 2008 – October 2009**

- Utilize XUL and CSS to build a web based application for CLP Skilled Trade Solutions.
- Primary focus is on usability and human-computer interaction with strict attention to detail.
- In addition to the core application, also responsible for design and development of the help system, installation interface, splash screen, interactive maps and custom instant message interface.

Contractor - Studio 222   **October 2005 – September 2009**

- Design and develop websites and web applications for a diverse range of clientele.
- Majority of projects utilize: HTML, CSS, PHP, MySQL, and JavaScript.

Web Designer – Silicon Storage Technology, Inc.   **December 2000 - October 2005**

- Responsible for design and front-end code of all the company's web based applications.
- Conceptualized and designed all new Intranet tools that would expedite company processes including: Hiring, Budget and Employee rating and reviews.
- Developed and maintained Flash animated tutorials to assist employees in using the intranet.
- Designed and maintained innovative customer-facing site that provides easy, online order status and tracking.
- Designed a customer profile tool which provided order tracking, return management, and contact information for SST sales representatives.

Web Designer – iVendor, Inc.   **November 1999 - December 2000**

- Coordinated with Engineering, Account Management, and Merchandising to create innovative and exciting E-Commerce solutions for business-to-business customers.
- Conceptualized multiple user interface comp designs and wireframe layouts for websites.
- Managed the design of projects from comp mock-ups to fully functioning sites.
- Utilized Flash to create animated promotional banners.
- Optimized graphics for cross-platform compatibility.

Graphic Designer – Bay Area Exhibits   **November 1998 - November 1999**

- Designed and animated three-dimensional models of intricate trade show exhibit booths.
- Interfaced with clients to design their company logos and large-scale graphics.
- Created renderings by applying color, light, and texture to wire frame models.
- Provided price quotes based upon the complexity of customer's needs.
- Coordinated the graphic process from ordering through shipment of final product.
